## Introduction

The **Oscars, commonly referred to as the Academy Awards**, are awards that recognize and honor exceptional artistic and technical achievements in the American film industry.

They are widely considered one of the most prestigious and **significant awards in the entertainment industry within the United States**.

Each year, the **Academy of Motion Picture Arts and Sciences (AMPAS)** presents awards to honor the cinematic accomplishments of primarily American films, as evaluated by the voting membership of the Academy.

### *Why Academy awards called Oscars?*

The Academy Awards, also known as the Oscars, got their nickname from American librarian and the Executive Director of the Academy of Motion Picture Arts and Sciences, Margaret Herrick, who saw the statuette and said it looked like her Uncle Oscar. The name caught on and has been used ever since. The official name of the award is the Academy Award of Merit, and the statuette depicts a knight holding a crusader's sword and standing on a reel of film.

## Academy Awards Statuette

The **winners in each category receive a golden statuette**, officially known as the “Academy Award of Merit,” but commonly referred to as the “Oscar.”

The statuette, **featuring a knight depicted in the Art Deco style**, was **created by Los Angeles artist George Stanley** based on a design sketch by art director Cedric Gibbons.

The inaugural Academy Awards **were hosted in 1929 as a private dinner hosted by Douglas Fairbanks at The Hollywood Roosevelt Hotel**.

In **1930**, the Academy Awards ceremony was **broadcast on the radio for the first time**, and it was **televised for the first time in 1953**.

It is also the **oldest of the four major annual American entertainment awards** and has served as a model for other awards such as the **Emmy Awards for television**, **the Tony Awards for theater**, and **the Grammy Awards for music**.

Since its inception in 1929, a total of 3,140 Oscar statuettes have been presented.
